

# Preferred Packaging

A division of  Flexible Packaging

## High Performance Packaging for Senior Meal Programs

**Preferred Packaging** is a fully integrated packaging material & equipment supplier for senior meals & snacks.

Our materials provide enhanced sealing properties to improve efficiencies, reduce leakers, and enhance output. Preferred warehouses most items to help manage your costs and production needs.

### Food Trays

A full portfolio of containers for meals, sides, and desserts are offered as part of the Preferred system.

We manufacture and distribute trays that are dual ovenable, microwaveable, or applicable for standard refrigerated and frozen applications. Preferred containers fit standard industry formats.

### Films

Our Affirm™ Lidding Films are produced in our facilities in the USA. They are designed to seal on a variety of machines with the lowest leaker rates and widest operating window.

Preferred offers printed films, anti-fog structures, and a variety of materials that provide oxygen and moisture barrier to help keep your meals fresh.

### Equipment

Preferred designs and produces its own premium OmniSeal packaging machines and accessories.

Our stock and custom built heat sealing equipment is produced to accommodate the demands of a commercial kitchen. Our exclusive inline film printing systems eliminate the need for costly labels and while providing the most professional appearance. We offer a variety of units from table top models to fully automated, high speed systems.
